

Welcome to the Pilot Program

Thank you for choosing to participate in the Senzit Connect Pilot program. The purpose of this program is to test and receive feedback on MANN+HUMMEL's newest digital product. We aim for Senzit Connect to be the most user friendly OBD II based solution on the market and can only do this with your help!

With Senzit Connect, we empower you to take control of your auto maintenance with full visibility into the health of your family fleet. Never miss an oil or filter change again with Senzit Connect's custom reminders and digital logbook. Decode and clear check engine lights or understand in, plain language, what your diagnostic codes mean and the severity of the problem.

More Information

To get more information, download additional instructions, or review FAQs:

Get Started

To get started, make sure you have your:

- ✓ Senzit Connect OBDII Dongle
- ✓ Smart Phone (iOS or Android)
- ✓ Senzit Connect Quick Start Guide (included in the product)
- ✓ A gas powered vehicle 1996+, or diesel 2003+

Your Feedback

Your feedback is critical to the success our project! You can provide feedback on the website and through the app! Here are a few things to consider as you use Senzit Connect!

- What are your impressions and likes/dislikes about things such as, but not limited to the appearance of the app, the features, ease of connection and setup, information provided, usability, etc.?
- Is there anything you would change with the app?
- Is there anything you would like to see added to the app?
- Did you experience any issues/bugs using the app?
- Where is the OBD II port for the sensor in your vehicle?
- Is the installed sensor in the way of your typical movement within the car? In other words, do you bump it with your knee/leg, does it interfere with accessing the gas or brake pedals, etc.?
- Would you recommend this app to others?
